Helping Leaders Grow

EQ-i 2.0 and EQ 360
Emotional Intelligence Assessments

Powerful tools to help you and your team increase Emotional Intelligence.

Emotional Intelligence, believed to be a far more reliable determinant of success than IQ, is a set of interrelated personal skills that determine how well we understand and manage our emotions, deal with the demands and stresses of life, and understand and relate with others. Emotional Intelligence helps determine success at work, at home, and in your community. Fortunately, emotional intelligence is not static.

Emotional Intelligence can be measured and it can be improved.

Measure your or your team's emotional intelligence with the next generation of the best and most scientifically valid assessments of emotional intelligence from MHS.

EQ-i 2.0®
assess. predict. perform.

The **EQ-i 2.0** and **EQ 360** are the most popular, reliable, and scientifically validated assessments of an individual's emotional intelligence. With special reporting capabilities for leaders, groups, and higher education and a separate assessment available for 360-degree feedback, the EQ-i 2.0 and EQ 360 are Peeler Associates' go-to assessments for individuals and organizations that want to increase their emotional intelligence.

Measuring emotional intelligence in 15 dimensions across five categories of functioning, the **EQ-i 2.0** provides detailed, graphically rich reports that help participants see the correlation between emotional factors and performance in life and on the job.

The **EQ 360** is a multi-rater version of the EQ-i 2.0 that assesses the same 15 dimensions from the point of view of people other than the person being assessed.

Grow the Emotional Intelligence of your team with a powerful day of learning.

Full or half day programs, from Peeler Associates, provide an opportunity for everyone on your team to complete the EQ-i 2.0 online prior to the program. On the day of your program, in addition to receiving their EQ-i 2.0 results, participants will learn a framework of emotional intelligence, discover how emotional intelligence impacts their performance, and begin the process of growing their emotional intelligence.
